

Congruent and Similar

Similar Figures

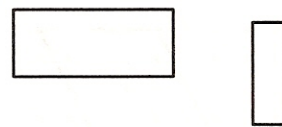

- same shape
- may be different sizes

Congruent Figures

- same shape
- same size

Not congruent Not similar

- not the same shape
- not the same size

To see if figures are congruent, trace one figure. If you can make it fit exactly on top of the other figure, the figures are congruent.

Write whether the figures are similar. Then write whether the figures are congruent. You may trace the figures.
