

Perimeter of Polygons

Coordinate Rectangles

Graph the ordered pairs. Connect the points.
 Record the length, width, and perimeter of the rectangle.

1. (3, 2), (3, 8), (7, 8), (7, 2)

$$l = \underline{\hspace{2cm}} \quad w = \underline{\hspace{2cm}} \quad P = \underline{\hspace{2cm}}$$

2. (7, 1), (4, 1), (4, 10), (7, 10)

$$l = \underline{\hspace{2cm}} \quad w = \underline{\hspace{2cm}} \quad P = \underline{\hspace{2cm}}$$

3. (9, 9), (9, 2), (2, 2), (2, 9)

$$l = \underline{\hspace{2cm}} \quad w = \underline{\hspace{2cm}} \quad P = \underline{\hspace{2cm}}$$

4. (7, 9), (7, 1), (1, 1), (1, 9)

$$l = \underline{\hspace{2cm}} \quad w = \underline{\hspace{2cm}} \quad P = \underline{\hspace{2cm}}$$

Compare the length and width of each rectangle to the coordinates you graphed.
