

Name _____

Let's Fly!

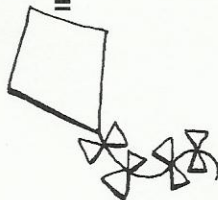

Think of ways to group digits together to make it easier to add a series of numbers. Choose the digits that are the easiest to combine and add together.

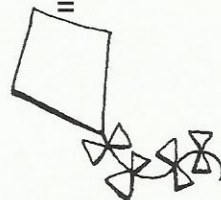

$$\underline{8+2} + \underline{6+4} + \underline{3+2} + \underline{1+4} = 30!$$

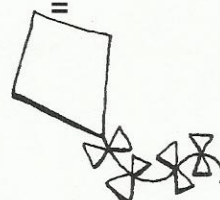

$$10 + 10 + 5 + 5 \quad (10 + 10 + 5 + 5 = 30)$$

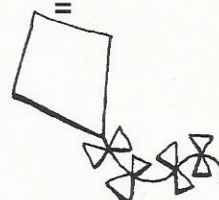

Add.

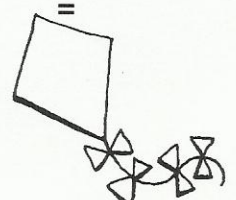

A.

$$\begin{array}{r} 5 \\ + \\ 3 \\ + \\ 2 \\ + \\ 8 \\ + \\ 4 \\ = \\ \square \end{array}$$

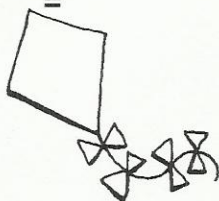

$$\begin{array}{r} 9 \\ + \\ 8 \\ + \\ 2 \\ + \\ 6 \\ + \\ 4 \\ = \\ \square \end{array}$$

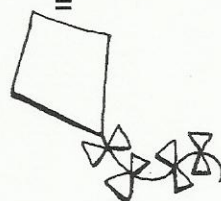

$$\begin{array}{r} 6 \\ + \\ 4 \\ + \\ 7 \\ + \\ 3 \\ + \\ 5 \\ = \\ \square \end{array}$$

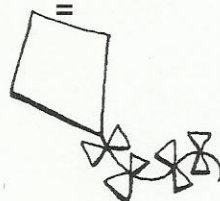

$$\begin{array}{r} 9 \\ + \\ 1 \\ + \\ 5 \\ + \\ 5 \\ + \\ 7 \\ = \\ \square \end{array}$$

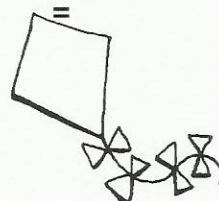

$$\begin{array}{r} 3 \\ + \\ 6 \\ + \\ 9 \\ + \\ 2 \\ + \\ 8 \\ = \\ \square \end{array}$$

B.

$$\begin{array}{r} 9 \\ + \\ 2 \\ + \\ 3 \\ + \\ 4 \\ + \\ 6 \\ + \\ 4 \\ = \\ \square \end{array}$$

$$\begin{array}{r} 4 \\ + \\ 4 \\ + \\ 2 \\ + \\ 8 \\ + \\ 2 \\ + \\ 7 \\ = \\ \square \end{array}$$

$$\begin{array}{r} 5 \\ + \\ 3 \\ + \\ 9 \\ + \\ 1 \\ + \\ 7 \\ + \\ 6 \\ = \\ \square \end{array}$$

$$\begin{array}{r} 4 \\ + \\ 3 \\ + \\ 2 \\ + \\ 7 \\ + \\ 9 \\ + \\ 8 \\ = \\ \square \end{array}$$

$$\begin{array}{r} 3 \\ + \\ 3 \\ + \\ 1 \\ + \\ 3 \\ + \\ 5 \\ + \\ 4 \\ = \\ \square \end{array}$$
