

Read and Make Histograms

Histograms are similar to bar graphs. They both use bars to display data, but the bars in a histogram are for intervals of data. There are no gaps between the bars of a histogram.

Hikers at Deer Creek Park

Age of Hikers	Number of Hikers
0-10	20
11-20	15
21-30	30
31-40	40
41-50	35

Make a histogram to display the data.

Hikers at Deer Creek Park

Distance in Miles	Number of Hikers
0-3	50
4-6	35
7-9	25
10-12	10
13-15	20

1. What length hike did most hikers take?

2. How many people hiked 10-12 miles?
