

Count Money and Make Change

To make change, start with the cost. Then count up to the amount given to you. Use the fewest number of bills and coins possible.

You sell a pen for \$2.49.
Someone gives you \$5.00 for the pen.

					
\$2.49	\$2.50	\$2.75	\$3.00	\$4.00	\$5.00
Cost					

Count the bills and coins to find the change: \$2.51.

Count up. Find the amount of change.

1. Amount given: \$6.00

					
\$5.34	_____	_____	_____	_____	_____
Cost					

Amount of change: _____

2. Amount given: \$10.00

					
\$3.79	_____	_____	_____	_____	_____
Cost					

Amount of change: _____
